

+ FULL-OFFICE REMOVAL AND DISPOSAL

CLEAR THE OFFICE. CONTROL THE REMOVAL. ONE ACCOUNTABLE PARTNER.

ASI coordinated office contents removal, hauling and disposal to clear First American Title's Tomball workplace.

DEFINED EXIT SCOPE

COMPLETED

OVERVIEW

CHALLENGE

The office exit required removal of the furniture and contents throughout the defined workplace scope, not just transport of selected items. Onsite crew, truck capacity and disposal responsibilities needed to stay connected.

ASI APPROACH

ASI joined the complete-office decommission scope with field removal, trucks, disposal and a specified broom-clean closeout, keeping the exit work under one accountable execution partner.

RESULTS

- Entry and interior rooms cleared of office contents.
- Onsite removal, hauling and disposal connected.
- Defined broom-clean requirement included in closeout.

FIRST AMERICAN TITLE | TOMBALL

ASI managed the defined decommission of First American Title's Tomball office, connecting onsite clearance with hauling, disposal and the specified broom-clean condition. The cleared rooms show the office contents removed while the building's existing finishes remain.

PROJECT INFO

CLIENT

First American Title

LOCATION

Tomball, Texas

PROJECT

Office decommission

EXECUTION

Removal and hauling

DISPOSAL

Defined removal scope

CONDITION

Cleared office areas

+ THE INTERIOR SCOPE

CLEAR THE WORKPLACE CONTENTS. KEEP THE EXIT SCOPE CONNECTED.

An office decommission joins onsite clearance, truck loading and disposal. ASI coordinated those responsibilities within the complete-office removal scope, with a defined broom-clean closeout.

CLEARANCE

FULL-OFFICE SCOPE

REMOVAL

TRUCKS AND DISPOSAL

CLOSEOUT

BROOM-CLEAN REQUIREMENT

MANAGE THE EXIT SCOPE

The assignment covered the office contents identified in the walkthrough. The field scope joined crew, trucks and equipment with complete onsite removal, making clearance and hauling parts of the same decommission.

CONNECT REMOVAL AND DISPOSAL

Removal did not stop at the loading point. Disposal and unloading responsibilities were included alongside the specified broom-clean condition, so the office clearance had a defined closeout boundary.

+ THE OUTCOME

THE OFFICE CONTENTS CLEARED. REMOVAL THROUGH DEFINED CLOSEOUT.

The Tomball assignment connected complete-office removal with hauling and disposal. Cleared entry and interior rooms demonstrate the removal result, while the existing building finishes remain visible.

CLEAR

OFFICE CONTENTS

Entry and interior areas were cleared within the office decommission scope.

CONNECT

REMOVAL AND DISPOSAL

Onsite crew, trucks and disposal responsibilities stayed within one assignment.

DEFINE

CLOSEOUT CONDITION

The work included a specified broom-clean removal condition.

WHAT THE PROJECT DELIVERED

COMPLETE-OFFICE SCOPE

The assignment addressed the workplace contents, not just a few selected items.

FIELD AND HAULING

Crew, truck and equipment coordination connected onsite removal with loading.

DISPOSAL RESPONSIBILITY

Disposal and unloading were included in the removal assignment.

CLEARED WORKPLACE AREAS

The entry and interior rooms show the office contents removed, with existing finishes retained.

ONE ACCOUNTABLE PARTNER. FROM ONSITE CLEARANCE THROUGH DISPOSAL.

DELIVERY RESULT

ASI connected office contents removal, hauling, disposal and the specified broom-clean closeout in one accountable decommission scope for First American Title's Tomball workplace.
