+ FURNITURE PROCUREMENT AND INSTALLATION

FURNISH THE SPACE. CONNECT THE WORK. OWN THE DETAILS.

A coordinated furniture program brought workstations, private offices and shared spaces together. ASI linked procurement, local receiving, installation and later power adaptations through one accountable team.

OVERVIEW

CHALLENGE

A new furniture package had to work across open benching, private offices, a conference room and a breakroom. Product deliveries, local receiving, installation and the connection to existing power required coordinated follow-through.

ASI APPROACH

ASI procured the specified furniture, coordinated receiving and delivery, and managed installation. Follow-up work addressed furniture details and adapted conference-table power to the existing floor-raceway connection.

RESULTS

- Furniture installed across work areas and shared rooms
- Local receiving and field installation connected through ASI
- Existing raceway reused for the conference-table power connection

CIM GROUP | LONGWOOD

At CIM Group's Longwood office, ASI connected furniture selection and procurement with local logistics and installation. The scope extended beyond the initial delivery to resolve practical furniture and power details in the occupied workplace.

Completed

+ THE LAYOUT BEHIND THE INSTALLATION

DIFFERENT ROOMS. ONE WORKPLACE.
THE PLAN CONNECTED THE PACKAGE.

The installation drawing places open benching beside private offices, a conference room and a breakroom. ASI coordinated the furniture package across this footprint, including the interface between work surfaces, storage, seating and power.

+ THE ASI DELIVERY MODEL

PRODUCTS HAD TO BECOME A WORKPLACE.
ASI CONNECTED THE STEPS.

The project linked purchasing and local logistics with the details that make installed furniture usable. ASI remained the coordinating point as the scope moved from the drawing into the field.

PLAN

CONNECT THE FURNITURE PACKAGE

Coordinate work surfaces, storage and seating for the open work area, private offices, conference room and breakroom.

SOURCE

MANAGE PROCUREMENT AND RECEIVING

Order the specified products and coordinate delivery to a local receiving warehouse before the site installation.

INSTALL

BUILD THE WORKPLACE

Deliver and install the furniture package, bringing together benching, office desks, meeting furniture and shared-space seating.

ADAPT

RESOLVE THE POWER INTERFACE

Connect the conference-table power whip to the existing Connectrac section after the original receptacle did not fit the table.

FINISH

FOLLOW THROUGH ON FIELD DETAILS

Coordinate follow-up furniture adjustments and outstanding items as part of the same customer relationship.

DELIVERY
One ASI point of contact

STATUS
COMPLETED

ONE TEAM CONTROLLED EVERY DEPENDENCY

ASI connected furniture suppliers, local receiving, the installation crew and electrical support. Field findings were brought back into the same project coordination instead of leaving the client to reconcile separate vendors.

PLAN	PROCURE	RECEIVE	INSTALL	CONNECT	SUPPORT

ONE ACCOUNTABLE PARTNER FROM PLANNING THROUGH FINAL CLOSEOUT.

+ THE OUTCOME

FURNITURE IN PLACE.
DETAILS BROUGHT TOGETHER.

Installed furniture served the office's open work area, private rooms and shared spaces. ASI also coordinated a practical connection between the conference-table power feed and the existing floor-raceway system.

WORKPLACE

COORDINATED FURNITURE

Work surfaces, storage and seating installed across multiple room types.

EXISTING

POWER INFRASTRUCTURE REUSED

The table connection was adapted to the existing Connectrac section.

ONE TEAM

CONTINUED ACCOUNTABILITY

Procurement, local installation and follow-up details remained connected.

WHAT THE PROJECT DELIVERED

OPEN WORK AREA FURNISHED

Benching, seating and storage were installed as parts of the specified furniture package.

PRIVATE OFFICES EQUIPPED

Desk and credenza combinations brought work surfaces and storage into enclosed rooms.

SHARED SPACES SUPPORTED

The conference room and breakroom received their assigned tables, seating and related furniture.

POWER CONNECTION ADAPTED

Electrical follow-up connected the conference-table power whip to the existing Connectrac infrastructure.

ONE ACCOUNTABLE PARTNER.
FROM PROCUREMENT THROUGH FIELD FOLLOW-UP.

DELIVERY RESULT

CIM Group had a single ASI coordination point connecting furniture procurement, local receiving, installation and practical site adjustments.
