+ A WORKPLACE TRANSITION, CARRIED THROUGH.

MOVE THE WORKPLACE.
BRIDGE THE TRANSITION.
FINISH THE DETAILS.

ASI connected temporary furniture, phased deliveries, office installation and custom printer cabinets for Star Stainless in Commerce, California.

PHASED FURNITURE DELIVERY.
PRACTICAL FIELD SOLUTIONS.

OVERVIEW

CHALLENGE

The workplace move needed a bridge between the existing furniture and the permanent installation. Desks, cubicles, reception, shared seating and printer stations also had to work together as requirements evolved.

ASI APPROACH

ASI moved and installed temporary furniture, coordinated split deliveries and installed the new office furnishings. Follow-on work expanded workstation surfaces and adapted printer cabinets to the equipment's paper-feed requirements.

RESULTS

- Temporary furniture supported the transition
- New office and shared-area furnishings installed
- Printer cabinets adapted for the actual equipment

STAR STAINLESS | COMMERCE

A phased workplace assignment spanning moving, temporary furniture, permanent installation and field modifications. ASI kept the related scopes under one accountable partner as the office took shape.

+ PLANS AND PROJECT SCALE

PLAN THE WORKPLACE.
MANAGE THE CHANGEOVER.

The early furniture sketch organized reception, desks and a central workstation group. The field assignment then connected temporary arrangements with permanent furnishings and later workstation additions.

EARLY OFFICE FURNITURE LAYOUT

PROPOSED WORKSTATION ARRANGEMENT

Reception, desks, workstation panels and shared furniture were considered within the same workplace assignment.

+ THE ASI DELIVERY MODEL

ONE WORKPLACE.
SEVERAL CONNECTED PHASES.

The assignment required a sequence of moves, deliveries and installations. ASI managed the furniture transition and the follow-on field details as connected parts of the same workplace project.

MOVE

PREPARE FOR THE TRANSITION

Disassemble existing cubicles and desks, move designated furniture for temporary use and clear the prior office area.

BRIDGE

PROVIDE TEMPORARY FURNITURE

Deliver and install loaner furniture while the permanent order and later installation phases progressed.

INSTALL

COORDINATE SPLIT DELIVERIES

Bring the new desks, reception furniture, workstation components and shared-area furnishings into the office in scheduled delivery stages.

ADAPT

ADDRESS EVOLVING WORKSTATION NEEDS

Incorporate the approved additional panels, worksurfaces, storage and ergonomic accessories into the existing furniture arrangement.

DETAIL

FIT THE EQUIPMENT WORKFLOW

Modify printer-cabinet tops so continuous-feed paper can reach the printers from below, then position the completed cabinets and equipment.

STATUS
INSTALLED FURNITURE

ONE TEAM CONNECTED THE FIELD INTERFACES

ASI connected the move, temporary furnishings, split deliveries, permanent installation and follow-on adjustments. The field plan carried the assignment beyond delivery to the details that made the furniture useful.

MOVE | BRIDGE | DELIVER | INSTALL | ADAPT | FINISH

ONE ACCOUNTABLE PARTNER FOR THE TRANSITION AND THE INSTALLED FURNITURE.

+ THE OUTCOME

A COORDINATED INSTALLATION.
DETAILS THAT DO THE JOB.

The finished furniture brought coordinated work surfaces, storage and shared seating into the workplace. Custom printer cabinets addressed a specific equipment requirement within the broader installation.

BRIDGE

TEMPORARY FURNITURE

Loaner furnishings provided a practical interim arrangement during the workplace transition.

INSTALL

CONNECTED SPACES

Office furniture and breakroom tables and chairs were delivered and installed across the project phases.

ADAPT

EQUIPMENT FIT

Printer cabinets were modified to accommodate paper feeding from below.

WHAT THE PROJECT DELIVERED

ONE CONNECTED ASSIGNMENT

Moving, loaner furniture, new furnishings and later adjustments stayed within ASI's coordinated scope.

INSTALLED SHARED AREAS

Breakroom tables and upholstered chairs created a coordinated seating arrangement.

WORKPLACE FURNITURE

Reception, desks, workstation components and storage were addressed within the phased installation.

PRACTICAL FIELD DETAIL

Custom openings in the printer-cabinet tops accommodated the equipment's feed path.

ONE ACCOUNTABLE PARTNER.
MOVE. BRIDGE. INSTALL. ADAPT.

DELIVERY RESULT

ASI gave Star Stainless one accountable partner for the furniture transition, phased installation and follow-on adjustments, including the custom details needed for the installed equipment.
