+ FINAL-PHASE WORKPLACE CLEARANCE

CLEAR THE WORKPLACE. CLOSE THE FINAL PHASE. ONE ACCOUNTABLE PARTNER.

ASI coordinated final-phase furniture removal, designated storage and kitchen clearance, and verified field closeout for Clarivate.

CLEAR FURNITURE

EMPTY CABINETS

VERIFY CLOSEOUT

OVERVIEW

CHALLENGE

The final phase required remaining furniture and designated contents to leave several workplace areas, with freight access and disposal placement coordinated around the building.

ASI APPROACH

ASI connected the walkthrough-defined clearing scope, furniture handling, disposal equipment, floor protection and field verification under one accountable partner.

RESULTS

- Final-phase clearing completed.
- Designated cabinets and storage emptied.
- Completion verified by the building engineer.

CLARIVATE | PARSIPPANY

ASI managed the final furniture-clearance phase at Clarivate's Parsippany workplace, joining open-floor removal with designated kitchen and storage closeout.

PROJECT INFO

CLIENT
Clarivate

LOCATION
Parsippany, New Jersey

SITE
5 Wood Hollow Road

SCOPE
Final-phase clearing

DELIVERY
Removal and closeout

STATUS
Completed final phase

+ THE INTERIOR SCOPE

CLEAR THE DESIGNATED AREAS.
CARRY THE SCOPE THROUGH CLOSEOUT.

Kitchen and storage clearance supported the broader furniture-removal phase. Cabinets were emptied while the fixed cabinetry, sink and other building infrastructure remained in place.

FURNITURE

STAGED AND REMAINING ITEMS

STORAGE

DESIGNATED CABINET CONTENTS

CLOSEOUT

FIELD COMPLETION VERIFIED

ONE DEFINED CLEARING SCOPE

The final-phase assignment connected staged furniture, upstairs areas, the kitchen and a storage closet. ASI carried the walkthrough-defined removal boundary through the clearing sequence.

BUILDING ACCESS MATTERED

Freight-elevator access, disposal-bin placement and floor protection shaped material handling. ASI coordinated those interfaces with the furniture and contents-removal scope.

+ THE OUTCOME

THE FINAL PHASE WAS CLEARED.
THE CLOSEOUT WAS VERIFIED.

The remaining furniture-clearance scope reached signed contractor completion and building-engineer verification. Open-floor removal and designated cabinet emptying formed one coordinated closeout.

CLEAR

FURNITURE AND CONTENTS

Staged and remaining furniture were removed from the designated areas.

COORDINATE

ACCESS AND HANDLING

Freight access, disposal placement and floor protection supported the clearing scope.

VERIFY

FIELD CLOSEOUT

Contractor completion and building-engineer verification closed the final phase.

WHAT THE PROJECT DELIVERED

WORKPLACE CLEARANCE

Designated furniture and contents were removed from staging, upstairs and kitchen areas.

STORAGE AND CABINETS

The defined storage closet and kitchen cabinet contents were emptied.

FINAL CONDITION

Broom sweep and walkthrough-defined clearing completed the removal scope.

FIELD ACCOUNTABILITY

The final phase reached signed completion and building-engineer verification.

ONE ACCOUNTABLE PARTNER.
FROM REMAINING ITEMS TO VERIFIED CLOSEOUT.

DELIVERY RESULT

ASI joined the furniture-removal scope, designated contents clearance, building interfaces and field verification under one accountable closeout partner.
