OVERVIEW

CHALLENGE

A workplace exit required furniture removal and a separate route for retained assets, with building access rules and receiving-site constraints.

ASI APPROACH

ASI joined origin clearance, packing and shipment preparation with destination delivery coordination under one accountable scope.

RESULTS

- Origin furniture-removal phase completed.
- Retained seating and storage delivered to Pittsburgh.
- Boxed telephone shipment delivered to Philadelphia.

CLARIVATE | ROCKVILLE

ASI managed a furniture-led workplace transition at Clarivate's Rockville office, coordinating removal and retained-asset handling across origin and receiving locations.

COORDINATION

ORIGIN AND RECEIVING SITES

SEPARATE REMOVAL FROM REUSE

ASI coordinated furniture dismantling, storage-room clearance and retained-item handling. Selected assets were prepared for redistribution rather than treated as one disposal stream.

ACCESS SHAPES THE DELIVERY

Property management restricted moving hours and required floor and wall protection. The Pittsburgh delivery included interior stair carry. ASI linked those constraints to the asset-handling scope.

+ THE OUTCOME

A COORDINATED WORKPLACE EXIT.
VALUE RETAINED THROUGH REUSE.

Furniture was cleared from Rockville and retained office assets were redistributed for continued use. Specific deliveries to Pittsburgh and Philadelphia completed distinct parts of the transition.
